

TENNESSEE STATE BOARD OF EQUALIZATION
BEFORE THE ADMINISTRATIVE JUDGE

IN RE: Gary W. & Suzy C. Sims)
Ward 073, Block 040, Parcel D00021C) Shelby County
Industrial Property)
Tax Year 2005)

INITIAL DECISION AND ORDER

Statement of the Case

The subject property is presently valued as follows:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$160,000	\$590,400	\$750,400	\$300,160

An appeal has been filed on behalf of the property owner with the State Board of Equalization. The undersigned administrative judge conducted a hearing in this matter on September 20, 2006 in Memphis, Tennessee. In attendance at the hearing were registered agent Jim Schwalls and Shelby County Property Assessor's representative Rick Middleton, TCA.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Subject property consists of a 1.4 acre tract improved with a 21,930 square foot distribution warehouse constructed in 1995 located at 3742 Cherry in Memphis, Tennessee.

The taxpayer contended that subject property should be valued at \$432,000. In support of this position, three comparable sales were introduced into evidence which Mr. Schwalls maintained support a value of \$19.70 per square foot or \$432,000 for the subject. In addition, Mr. Schwalls introduced an offer made on May 17, 2005 to purchase subject property for \$475,000.

The assessor contended that subject property should be valued at \$750,400. In support of this position, the income approach and several comparable sales were introduced into evidence.

The basis of valuation as stated in Tennessee Code Annotated Section 67-5-601(a) is that "[t]he value of all property shall be ascertained from the evidence of its sound, intrinsic and immediate value, for purposes of sale between a willing seller and a willing buyer without consideration of speculative values . . ."

General appraisal principles require that the market, cost and income approaches to value be used whenever possible. Appraisal Institute, *The Appraisal of Real Estate* at 81. (11th ed. 1996). However, certain approaches to value may be more meaningful than others

with respect to a specific type of property and such is noted in the correlation of value indicators to determine the final value estimate. The value indicators must be judged in three categories: (1) the amount and reliability of the data collected in each approach; (2) the inherent strengths and weaknesses of each approach; and (3) the relevance of each approach to the subject of the appraisal. *Id.* at 601-607.

The value to be determined in the present case is market value. A generally accepted definition of market value for ad valorem tax purposes is that it is the most probable price expressed in terms of money that a property would bring if exposed for sale in the open market in an arm's length transaction between a willing seller and a willing buyer, both of whom are knowledgeable concerning all the uses to which it is adapted and for which it is capable of being used. *Id.* at 22.

In view of the definition of market value, the income-producing nature of the subject property and the age of subject property, generally accepted appraising principles would indicate that the market and income approaches have greater relevance and should normally be given greater weight than the cost approach in the correlation of value indicators.

After having reviewed all the evidence in the case, the administrative judge finds that the subject property should be valued at \$750,400 based upon the presumption of correctness attaching to the decision of the Shelby County Board of Equalization.

Since the taxpayer is appealing from the determination of the Shelby County Board of Equalization, the burden of proof is on the taxpayer. See State Board of Equalization Rule 0600-1-.11(1) and *Big Fork Mining Company v. Tennessee Water Quality Control Board*, 620 S.W.2d 515 (Tenn. App. 1981).

The administrative judge finds that January 1, 2005 constitutes the relevant assessment date pursuant to Tenn. Code Ann. § 67-5-504(a). The administrative judge finds that events occurring after the assessment date are not normally relevant. See *Acme Boot Company and Ashland City Industrial Corporation* (Cheatham County - Tax Year 1989) wherein the Assessment Appeals Commission ruled that "[e]vents occurring after [the assessment] date are not relevant unless offered for the limited purpose of showing that assumption reasonably made on or before the assessment date have been borne out by subsequent events." Final Decision and Order at 3.

The administrative judge finds that two of the three sales considered by Mr. Schwalls occurred after January 1, 2005 and are irrelevant. Similarly, the administrative judge finds that the May 17, 2005 offer to purchase subject property is irrelevant. The administrative judge finds that the single remaining sale does not constitute sufficient evidence to establish subject property's market value. Moreover, the administrative judge finds that the cost and income approaches were not even addressed in Mr. Schwalls' analysis.

Based upon the foregoing, the administrative judge must respectfully conclude that the taxpayer introduced insufficient evidence to establish a prima facie. Accordingly, the administrative judge finds it unnecessary to even address the assessor's proof.

ORDER

It is therefore ORDERED that the following value and assessment be adopted for tax year 2005:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$160,000	\$590,400	\$750,400	\$300,160

It is FURTHER ORDERED that any applicable hearing costs be assessed pursuant to Tenn. Code Ann. § 67-5-1501(d) and State Board of Equalization Rule 0600-1-.17.
